

PE ON STAFF AT GLENCO, INC.

Glenco, Inc. is pleased to announce the addition of David Billingsley, P.E. to our staff. David brings with him knowledge and experience in engineering and design services in the architectural, mechanical, and structural engineering fields, providing wind, gravity, and seismic calculation packages. David has expertise in both stick built and factory built structures, and the processes and systems associated with each.

David's professional experience includes previous employment at Progressive Engineering, Inc. and as Director of Engineering at NTA, Inc., a third party approval agency. He also holds ICC Certifications as a Residential Building Inspector, Residential Electrical Inspector, Residential Mechanical Inspector, Residential Plumbing Inspector, and Residential Combination Inspector.

We are excited about his arrival and the opportunity for Glenco, Inc. to offer a broader range of professional services in house. The staff at Glenco, Inc. can take your project from start to finish with professional positions ranging from Draftsperson to Professional Engineer. With over 80 years combined experience, Glenco, Inc. has the knowledge and expertise to take a design concept, develop it into preliminary plans and then to a full construction set with permit approval, ranging from single family structures to multi-unit commercial projects, and all from our Middleburg, PA location.

Please contact us for information on the full range of services available. We look forward to continuing to provide the professional services we have in the past, and the opportunity to escalate our professional staff with an in house Professional Engineer.
